# GET Congress and Exhibition

Effecting real change to realise the global energy transformation

The Global Energy Transition Congress is the place where international climate commitments grow into workable, collaborative and commercially viable climate actions.

It is the only global event connecting carbon intensive industrial ecosystems, removing barriers, unblocking bottlenecks, facilitating dialogue, and increasing the pace of the energy transition.

GET will bring together stakeholders from across the energy, hard-to-abate, and finance sectors, providing a forum for experts in the energy transition to create new networks, freely exchange ideas, and compare innovative resolutions to longstanding concerns. This is a crucial opportunity for thought leaders to inspire real change.

Through an unrivalled mix of curated content, peer-to-peer networking, critical thinking and debate, GET will inspire action to accelerate the energy transition. The Congress will host a high-level dialogue on new industrial priorities, challenging a diverse range of stakeholders to address the toughest questions and solve seemingly unsolvable problems.

Multiple distinct but interlinked factors have brought the world to an inflection point, where the scale of the opportunity is matched only by the consequences of increased global climate disruption. Transformative progress on climate can only be achieved by breaking down silos and bringing key industries closer together.

As the global energy transition gains pace, we recognise the need for tangible, practicable and solutions-focused cross-sector partnerships.

“ We must cut emissions by 45% by 2030 to have any chance of limiting warming to 1.5°C. This will require proactive, co-ordinated action. That’s why I’m speaking at the Global Energy Transition Congress and Exhibition. ”

**RT Hon Tony Blair**  
Former Prime Minister of Great Britain and Northern Ireland

# Why visit

**Discover** decarbonisation solutions and technologies from exhibitors and see what you can learn to support your journey to net zero.

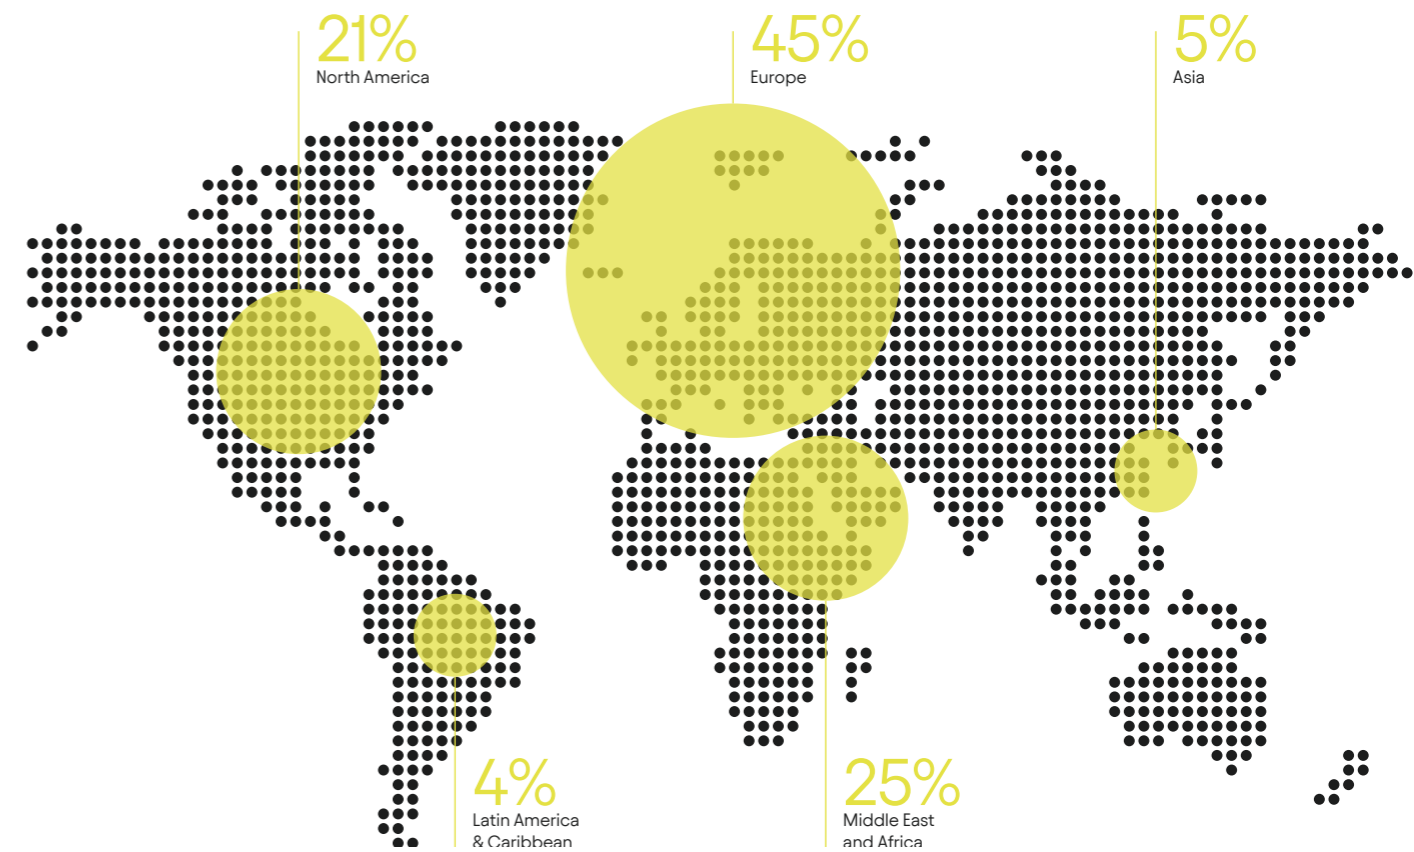

**Build** key business relationships with access to decision makers and influencers working across the energy transition.

**Access** to the Project X-Change theatre to explore 40+ decarbonisation presentations across 3 days.

## A global event

300 +

Ministers and CEOs speaking

200 +

Participating companies

70 +

Conference sessions

# Sectors you can expect to see at GET

GET is the only global conference and exhibition connecting the low-carbon energy and industrial eco-systems to accelerate the energy transition and deliver measurable change.

GET will bring together Ministers involved in the energy transition, CEOs from the energy, hard-to-abate and finance sectors as well as start-ups. This is a crucial opportunity for leaders from the energy, low-carbon solutions, utilities, cement, steel, mining, heavy duty transport, chemicals, finance and tech sectors to create transformative partnerships which can bring about real change.

# GET 2024 at a glance

## International exhibitors

Explore the latest advances in energy transition technologies. Network with key decision-makers and influencers. Engage in discussions on sustainability, innovation, and decarbonisation. Gain insights into the strategies driving the global energy transition.

## The GET Exhibition floor

The GET exhibition floor will showcase new global products, solutions and technologies across the value chain. The many features will include specialised zones on the exhibition floor which will offer the opportunity to mingle with your network and converse with new connections.

## Project X Change Theatre

The GET Project X-change conference showcases the world's leading multi-stakeholder projects and decarbonisation initiatives.

Businesses and organisations from around the world were invited to submit projects for presentation which are already contributing to emissions reductions or have potential to do so, but are awaiting Final Investment Decision. Selected via peer review, they are best-in-class examples of practical action on net zero.

Featuring a mix of fully delivered, advanced planning and early-stage case studies, each of the featured projects is scalable, replicable and

# Project X-Change Conference

The GET Project X-Change conference will showcase the world's leading multi-stakeholder projects and decarbonisation initiatives. Selected via peer review, they are best-in-class examples of practical action on net zero. Featuring a mix of fully delivered, advanced planning and early-stage case studies, each of the featured projects is scalable, replicable and adaptable.

Visitors to the GET Congress and Exhibition are invited to attend the Project X-Change.

The GET Project X-Change Conference showcases the world's leading multi-stakeholder projects and decarbonisation initiatives.

The Project X-Change has been designed to allow project leaders to present their latest emissions reduction undertakings and inspire delegates and visitors to consider if they could carry out similar projects as well as offer ideas for scalability and efficiency.

Curated via a call for projects and assessed by our Selection Committee, the range of featured projects includes a mix of fully delivered, advanced planning and early-stage case studies as well as projects that have not yet achieved FID.

Featured projects that are already in progress have been chosen due to their impact on emissions reduction and opportunities for scalability, replicability, and adaptability.

Projects which have not yet achieved FID have been chosen due to the potential impact that they could have on emissions.

With over 30 projects presented over three days, the programme cover a wide range of solutions including hydrogen, biomethane, nuclear energy, carbon capture, iron ore production, cement production, agri-feedstocks and more.

## Project X-Change Conference Day One Monday 1 July 2024

12:00-12:30	The world's leading hydrogen projects – part 1
13:00-13:30	The world's leading hydrogen projects – part 2
15:00-16:00	New lower carbon solutions showcase
16:00-16:30	Waste and excess energy solutions in focus
17:00-17:30	Carbon utilisation and sequestration in action

## Project X-Change Conference Day Two Tuesday 2 July 2024

10:00-10:30	Hard-to-abate industry decarbonisation projects
11:00-11:30	Green steel in focus
12:00-13:00	Decarbonisation journeys in Sub-Saharan Africa
13:00-13:30	Lower carbon energy infrastructures
14:00-14:30	The Ravenna carbon capture project
15:00-15:30	Greener power and fuels
16:00-16:30	The evolving ammonia value chain

## Project X-Change Conference Day Three Wednesday 3 July 2024

10:00-10:30	Energy transition industry clusters and collaborative expertise
11:00-11:30	Wind and water in focus
12:00-12:30	Decarbonisation in the age of big data

# Networking opportunities

## The GET Networking app

Maximise your experience with the app's incredible functionalities:

- View the latest agenda and speaker announcements
- View the attendee list, speakers, sponsors and exhibitors
- Network and liaise with other delegates
- Schedule in meetings with other delegates ahead of the summit
- Discover and connect with the people who matter to you via AI matchmaking
- Access the summit presentation slides

## GET Networking coffee breaks and lunches

Throughout the Congress and Exhibition programme, there are extended coffee breaks and lunches to maximise your networking time without missing out on any key sessions. All confirmed GET attendees will be invited to log into our app and enjoy pre-event and on-site opportunities to book meetings and converse with our network.

## GET Exhibition floor

The GET exhibition floor will allow you to explore the latest advances in energy transition technologies, whilst networking with key decision-makers and influencers and engage in discussions on sustainability, innovation, and decarbonisation. Featuring exhibitors, the show floor will allow you to gain insights into the strategies driving the global energy transition.

## Register as a visitor to:

At GET, you'll have the opportunity to:

- Explore the latest advancements in energy transition technologies
- Network with key decision-makers and influencers
- Engage in discussions on sustainability, innovation, and decarbonisation
- Gain insights into the strategies driving the global energy transition

# Upgrade to a delegate pass to access the Strategic Conference

Be an architect of the global energy transformation at Global Energy Transition 24

Register as a delegate, and hear insights from 300+ Ministers and CEOs speaking, including energy ministers, CEOs and global business leaders. Featuring 70+ conference sessions, our delegate pass allows access to all areas of our strategic conference and our spotlight sessions, allowing you to Global Energy Transition Congress and Exhibition the bigger picture on global energy transition trends and access a deep-dive into the opportunities and challenges ahead of us on our journey to a net-zero eco-system.

A selection of confirmed speakers on the GET Strategic conference programme

To see the full line up visit: <https://www.getcongress.com/conference/speakers-2024/>

# GET Congress Delegate Pass

The Global Energy Transition Congress aims to find solutions for the most pressing issues faced by energy leaders. Energy security, alternative energies, low carbon solutions, and climate technologies will feature on the agenda.

Delegates will have unlimited access to three conference programmes as detailed below.

## GET Congress pass includes:

### Strategic Conference

- ✓ 1 x Opening Ceremony
- ✓ 5 x Keynote Addresses
- ✓ 13 x Changemaker sessions
- ✓ 15 x Global Energy Transition in Action sessions
- ✓ 4 x Critical Agenda papers

### Roadmaps to Net Zero Conference

- ✓ Curated via a Call for Papers
- ✓ 15 x Sessions
- ✓ 54 x Presentations

### Project X-Change Conference

- ✓ Curated via a Call for Projects
- ✓ 16 x Sessions
- ✓ 34 x Project Showcases

**Delegate Pass:**

€EUR 2750 + VAT

Visit [getcongress.com/delegate-registration](https://www.getcongress.com/delegate-registration) or scan the code to register as a delegate

# Delegates will have unlimited access to three conferences

## GET the bigger picture

The Strategic Conference programme has been curated with our knowledge partners BCG and Wood Mackenzie and with the guidance of our Steering Committee. The programme includes the opening ceremony, keynote addresses, ministers in conversation and CEO-lead panels. With contributions from executive leaders from multiple industries, investors and entrepreneurs, these discussions will inspire authentic action on the energy transition.

## GET into the detail

The Roadmaps to Net Zero Conference is the result of our international call for papers which received over 500 submissions from over 50 countries. These were analysed by our selection committee and the highest ranked papers will be presented during this three-day programme. They outline pragmatic roadmaps for a new, sustainable energy system-of-systems and examine potential obstacles to success and proven means of navigating the energy transition efficiently and effectively. Sessions will focus on the capital, engineering, science and technology needed to effect change at scale and pace.

## GET global ideas

The Project X-Change Conference showcases the world's leading multi-stakeholder projects and decarbonisation initiatives. Businesses and organisations from around the world were invited to submit projects for presentation which are already contributing to emissions reductions or have potential to do so, but are awaiting Final Investment Decision. Selected via peer review, these presentations inspire scale-up, replication and adaptation.
